Subject: [External] Thursday night Public Hearing for Docket No. 2019-290-WS in York, SC

To all parties,

A rare snowfall of 1"-3" has been forecast for tomorrow evening's Public Hearing in York, SC. Perhaps it is too early to make travel decisions, especially since it seems that these forecasts tend to be on the "pessimistic" side. This email is intended to put the weather on the "radar" of those who are decision makers. <https://www.wunderground.com/weather/us/sc/york>

I plan to attend regardless of the weather. I know that quite a number from Foxwood are also planning to attend if the schedule isn't changed.
